Earrings with Substance

Fitting Gifts at the Fitting Room now carries earrings by Dallas' **LMG&Co.**

Perhaps the most important design element LMG&Co.'s designer Leah Gormly conveys in her jewelry is that of texture. "Texture is both tactile and visual, and it surrounds us--in tree bark and leaves, in stone walls and antique hardware. Texture connects with something deep inside. Texture can evoke old memories or create new ones; it can propel us forward or cause us to stand still. In each piece of jewelry I design, I work to bring some form of texture to life."

Blending fine craftsmanship, artistry and fashion, LMG&Co. offers fresh, innovative designs fusing classic and modern style.

Prices range from \$125.00 to \$250.00
