Passing the Luck

Hair accessories made from twigs. Bracelets woven from bark. Fig-leaf undergarments.

Some people take the back-to-nature look a step (or 50) too far.

How to express your love of the outdoors without getting dirt under your fingernails? Try a piece from LMG & Co. twig and vine jewelry collection.

The sterling silver rings, pendants, bracelets, and earrings have a bark-inspired surface and a matte or patina finish that gives the pieces a woodsy yet refined quality. The twig pendant with floating pearls, earrings with tiny pear leaves, and bracelets made of individually strung twigs all make stunning adornments, enabling you to maintain peak style while becoming one with nature.

Without actually, you know, becoming *one* with it.
